A A A S. Section M (editorial) 966
Abbreviations, scientific and engineering (symbols and 549
Aberdeen Proving Grounds maneuvers (editorial) 864
Absolute zero (editorial) 554
Accelerator in cement setting, calcium chloride as an 390
Accumulator, Ruth's steam 394
steam, progress of 394
Acid erosion inhibition (C. T.) 962
sludge, boiler plant to burn 299
Adams, J. R. 854
Aero Diesel engine, Packard 618
Aerodynamics, engineering (book review) 478
Aeronautic Division, A S M E, third national meeting of, May 27-30, 1929 558
Aeronautical engines, Wright, new 690
Aeronautical medal, the "Spirit of St. Louis" 556
Aeronautical motor, the air cooled (editorial) 88
Aeronautics at St. Louis, May 27-30, 1929 558
cross license patent agreement 374
progress in 5
Africa, South, manganese deposits in 544
Agriculture, American, contribution of mechanical power and invention to (note on) 196
engineering methods applicable to 193
Air and steam nozzle, water-cooled 691
around the world by (editorial) 788
-cooled aeronautical motor (editorial) 88
-cooled Diesel airplane engine, an (note on) 209
flow, discharge coefficients of square edged orifices for measuring 537
measuring the flow of, discharge coefficients of square edged orifices for 537
-steam mixtures, t x diagram for 769, 849
Aircraft Diesel engine, Packard 74
Diesel engine possibilities 771
for passenger transport 581, (C) 963
motors, chemical cooling of 536
radio developments applied to 509
Reynolds tubing for 375
terminals (editorial) 475
Airfoil characteristics, prediction of 851
Airplane, American, historical development of 103
engine, an air cooled Diesel (note on) 209
engine in the United States, development of 186
engines, crude oil or gasoline 373
Fairey long-range monoplane 373
motor, radial type, Hurricane 299
tire 944
Airplanes, biplane, movable-wing 73
commercial factors in design of 912
Airport design and construction, fundamentals and certain details of 423
Airship industry, the (editorial) 966
the metalclad 905
Akron Meeting of A S M E (editorial) 969

Alford, L. P., and Hanscom, J. E. A basis for evaluating manufacturing operation 181
Alleman, Merville J. 77
Alloy steel castings, heat treatment of carbon and 289
Alt, Prof. Dr. 465
"Alternating" stress 374
Alumina cements 462
Aluminum sheet, deformation of (C. T.) 552
American education, the technical institute, European examples and their significance for 451
life, engineers in 869
A S M E, Akron meeting (editorial) 969
Annual Meeting (1928) 90
Annual Meeting papers (1929), synopses of 883
Annual Meeting program (1929) 881
boiler code. See Boiler code
fiftieth annual meeting (editorial) 788
Iron and Steel Division 868
research on the physical properties of steam 384
Rochester meeting 557
special research committee on condenser tubes, progress report No. 2 of 439
Transactions papers, synopses of 171, 248, 327, 481, 561, 638, 716, 794 875
American Standards Association, member bodies and representatives of 386
Ammonium chloride as a refrigerating agent 155
Amphibion and seaplane, some aspects of 813
Anoschenko, B. 379
Apparatus, instruments and (A S M E code) 311
Apprentice system of Lynn plant, General Electric Company 285
Apprentices, selection with aid of tests, experience in 288
Aprons, spillway 539
Arches and walls of boiler furnaces, protection by molten ashes 698
Arctic regions, flight in the 807
Army mechanization (editorial) 967
ordnance, progress in 542
Arnould, J. 463
Arsenal, research 542
Ashes, molten, protection of arches and walls of boiler furnaces against 698
Aspirator, electrical CO_2 meter and 377
Astronautics (editorial) 864
Astronomical clock, Short's 538
Astronomy, modern, and the engineer (note on) 298
Atmos boiler 379
Atom, energy from the (editorial) 322
